An additional objective of the restoration committee is to preserve and restore all those buildings and historical sites in Carbondale and the surrounding area that are significant in local history and culture and which, collectively, constitute Carbondale's irreplacable cultural and architectural heritage. As such, the Committee has had repaired the broken historical marker, which gives a brief account of the founding of the city of Carbondale, that used to stand along Route 6 in Childs. This historical marker is one of the over 1,400 historical markers (gold lettering on a blue background, topped by the coat of arms of the commonwealth of Pennsylvania) that have been installed by the Pennsylvania Historical and Museum Commission since 1946. On September 25, 1982, at 10 A.M., the Committee will install this Carbondale historical marker in the small plot of land on the City Hall lot between City Hall and the Columbia Hose Company. The public are invited to attend these installation and dedication ceremonies.

The Committee to Restore Carbondale City Hall is an independent group of Carbondale citizens and friends of Carbondale City Hall and of the city of Carbondale. The Committee is not affiliated with any agency of the city, county or state governments. The funds that the Committee has already raised, as well as the funds that the Committee will ultimately raise in order to accomplish its objectives, are completely under the Committee's control. Earlier this year, the Committee contracted to have the tower clock of City Hall repaired, at a cost of over $3,000.
